

Planning Checklist

Use this checklist to help you get prepared for your initial design appointment. Having this information will help streamline the design process for efficiency and accuracy. While these things are not set in stone, consider them a jumping off point to get you thinking about the different elements for consideration.

The Fundamentals

- What is your budget?
- Estimated timeframe for completion?
- Who is your contractor/builder? List their details below:
Name: _____
Phone: _____
Email: _____
- Create a wish list for items you'd love to see in your new space.
- Define your appliance selection, including make and model. If this cannot be determined, please note their overall sizes.
Fridge/Freezer (Full Depth or Counter Depth?): _____
Stove/Cooktop: _____
Microwave (over the range, countertop, under counter?): _____
Dishwasher: _____
Ventilation (under-cabinet, freestanding, integrated): _____
Wall Oven/Microwave: _____
Are any appliances panel-ready (cabinet fronts)? _____

- Consider whether your current layout is functional, or if a change is required.
- From a structural standpoint, is there anything that will be altered within the space?
- Reflect on the desired overall style of the space. Would you like cabinetry to the ceiling? Do you prefer more drawers or doors? Any accessories to improve the function? Under-cabinet lighting? Are there any specific storage needs?
- Gather a few images (3-5) to express your design direction or inspiration for the space.

Services Required

- Tear-Out of existing cabinetry/laminate countertops?
- Delivery
- Installation

Please reach out to our office if you have any additional questions.
